the game's core is standard merge 2 gameplay players complete the characters orders by merging items earning resources and using them to construct buildings in the city an unobtrusive dialogue based narration accompanies the whole process once you have acquired the mysterious fossil any remaining fossil items will no longer serve a purpose they can be sold as it is only possible to possess one mysterious fossil per playthrough begin on your journey follow these steps diligently and uncover the enigmatic mysterious fossil in travel town this power boost is used extensively by coin master monopolygo and other competitors when players deactivate boost x2 they feel like they're progressing too slowly in comparison it makes them want to activate boost x2 again even though it expends more energy the game was fun at first but i've had many glitches over the past few months i assume this is coming from new updates first i haven't been able to play for the past 3-5 days because as soon as i get on it says there is an internet connection issue and then loads forever and nothing happens this is 100% not an internet issue on my end and i don't think there's a way that i can fix this problem since the game will completely load in and then when i get to the board it starts having the issue second i've had a one-one my production items just copy itself for

no reason it s a low level one and i have no use for it since i have completely leveled up the production item that is was supposed to be it s been sitting in my extra storage space for months now so it s literally useless and taking up space third issue is sometimes i will be playing and some of my items will turn invisible like they are still their and i can move them but i can t see them really annoying because i think i have more space on my board and then i have to figure out switch item is glitching and it s just this big hassle this is more of an opinion but i hate how you guys changed the some of the skins for past items they looked fine before and it kind of looks worse only leaving this review to see if i can get these issues fixed because i do enjoy playing the game other than these issues i ve been having
